

# T A K E A F R E E R I D E !

**Are you a student in Sønderborg, with a driving license who loves to go on adventures?  
Rent our car for free and go discover your neighbourhood, if you're a member of our volunteer group "Sønderborg Student Foundation"!**

The car, called "Country Car", can be used for trips around the entire municipality where you can enjoy the free life (what is "free life"?), the peaceful nature and discover the countless opportunities of the area such as swimming, diving, horse riding, mountain biking, sailing, hiking, homemade ice-cream, shops, historical sites, festivals, concerts, flea markets, jousting, collective dining...

Sønderborg municipality, three villages and the "Traffic and Construction Authority" are collaborating in order to improve public transport in surrounding/nearby areas. We will be given the chance to have great travelling experiences with the car for the period of 8 months in order for us to assess the benefits of this project/alternative.

Jump at this new unique opportunity to explore the unknown parts of your surroundings!

Enjoy your trip, have fun, take pictures !

Find further information about us and how to get the car on [www.SSF4U.org](http://www.SSF4U.org)

On behalf of Sønderborg Student Foundation & The Rural Committee
